Assignments:

All students are required to attend TA section meetings once a week. Students must complete all readings / assignments that are assigned by the TA. You will be penalized if you fail to attend TA section meetings or complete assignments. Attendance will be taken from weekly assignments. T.A. Recitations are worth 20% of your total grade.

Weekly Assignments:

Students are required to submit either a typed summary or an outline of the assigned readings. The outline or the summary should be typed, double-spaced and between 2-3 pages. Students must also include 1-2 discussion question(s) to their summary or outline.

Summary:

Summaries should be written in a clear and cohesive manner. Students will be expected to demonstrate a clear understanding of the main arguments presented in the readings. Students are free to add their scholarly critiques of the readings but they should be supported by details from the readings or lectures.

Outlines:

Outlines of the readings should also be written in a clear and cohesive manner. Students are expected to capture the main points and supporting details of each reading. More details will be given in class.

Attendance:

Attendance will be taken from the weekly assignments. Students who do not hand in assignments will receive a 0 for that unit. Students are allowed to have two excused absences. For those students who attend every recitation, the two lowest scores will be dropped. Anyone who is late twenty minutes or more to class will be considered absent and will receive a 0 for that unit. Students that are tardy (5-20 minutes late) twice will receive a 0 for the day of their second tardy.
